Essential How-Tos Are your claims being rejected?

We have made a considerable effort to verify provider Tax ID numbers because it is a now a requirement in determining whether a claim submission is processed or rejected. Your billing Tax ID number and providers' individual National Provider Identifier (NPI) must be linked in the ProviDRs Care system in order for us to process claims correctly (effective on all claims filed on or after Jan. 1, 2019).

To ensure all providers in your practice are active and linked to your Tax ID in our network, please email ProviderRelations@providrscare.net with your practice Tax ID number, along with a list that contains the name and NPI of the Providers who bill under that Tax ID. After review, we will provide a Tax ID Confirmation Report to verify participation.

How to Avoid Disruptions in Future Claims Processing

To help ensure we are able to process your claims in a timely manner, it is important to provide any changes to your provider information at least 30 days prior to the change being effective. This notice is required for any of the following changes:

- Tax ID Number affiliation
- Adding or Terminating a Provider
- Group Name
- Provider Name
- Physical, Billing or Mailing address
- Telephone or fax number
- Credentialing Contact Email

Please send updates to ProviderRelations@ProviDRsCare.net by completing the online form available at <https://providrscare.net/wp-content/uploads/2015/11/Provider-Changes.pdf>

GETTING TO WORK WITH PROVIDER RELATIONS

We said please. Here's the Thanks: 2019 Tax ID Requirement

Thank you for your responses to our inquiries about Tax Identification Numbers (TINs) in November and December last year. The follow up provided by your staff has been very helpful in ensuring the claims process rolls along as smoothly as possible.

Essential Resources: ProviDRsCare.net Provider Directory Overview

The ProviDRsCare.net Provider Directory is real time and should be your first stop to verify network participation, effective date and associated group(s).

If you search for your provider and the provider is not found, or found but with outdated information, please complete the Provider or Practice Updates & Changes form found on our website <https://providrscare.net/wp-content/uploads/2015/11/Provider-Changes.pdf>. Submit completed form along with a copy of the W-9 to ProviderRelations@ProviDRsCare.net.

Hospitals: Onsite Meetings Coming Soon

ProviDRs Care is in the process of establishing annual onsite meetings with our partner hospitals. This is part of our commitment to our providers in sharing updates as well as addressing any issues or concerns you may be experiencing. Also, we want to let you know about new community employer relationships we've developed over the past year.

Did You Know?

Medica, one of our payer partners on the Health Insurance Marketplace (also referred to as the Exchange) currently offers its Connect product for individuals and families throughout most of Kansas. Connect tiers benefits for services rendered by hospitals and hospital-employed physicians. Your patients are financially incentivized to access Tier 1 hospitals and physicians where they have the highest benefit level of coverage and lowest out-of-pocket costs.

MEET STACEY

Please contact Stacey Wilkerson, if you have not yet received a meeting invitation or are interested in becoming a Medica Connect Tier 1 hospital.

Changes in Provider Emails Affects Credentialing and We Have Reminders for you

At ProviDRs Care, we recredential our network participants every 3 years, and we use the Council for Affordable Quality Healthcare (CAQH) when sending requests to initiate the recredentialing application. ProviDRs Care sends these requests to the credentialing contact listed on the provider's CAQH application.

If the credentialing contact information within CAQH is not current, ProviDRs Care loses the ability to contact the provider in

a timely manner. This could result in a delay in recredentialing and a possible lapse in network participation. It is critical that the contact information is reviewed and updated when that information changes.

A Good Rule of Thumb

Remember to review and update all CAQH information each time a new attestation date is added to the application.
